

Bellwether Coffee Services

Our green coffee team is here to help your business grow

MENU PLANNING

Need to plan a menu from scratch? We can help!

Our team of experts will work with you to understand your preferences, your budget, and goals for your business, to craft an informed menu that meets your needs.

You'll receive a personalized menu plan to inform your green buying for a full calendar year.

You'll always know when fresh coffees are scheduled to land, when current harvests can be retired, and know how to prepare for growth. We'll make sure your menu stays fresh, seasonal and special to you.

CUSTOM SOURCING

Want something you don't see on our menu? We'll be your private buyer.

If you want a coffee that is exclusively yours, want to secure a larger lot for a longer period of time or want a coffee that is harder to find, we've got you. Our Coffee Team will source and contract for you, and build you custom profiles. 10 bag minimum required + 4-6 week timeline for order.

MENU MATCHING

Love your menu already? We'll match it so you will be set from Day 1!

Send us samples of your coffee, and we'll evaluate roast level, origin, flavor, and price point and recommend the perfect green coffees from our Marketplace. We'll send you roasted samples until we curate the perfect selection to transition your current menu.

CUSTOM BLENDING

Want your own signature blend? We'll build a custom green blend for you.

Let our green coffee team help you build your signature coffee. We'll work with you directly to assess your preferences, understand your budget, and match you with coffees and profiles which we'll then blend and bag for you to draw from over time. 1000 lb. per month commitment required.
